Place: Front yard

Description of objects

east to west

I saw the object moving from west to east overhead. I first noticed it about over the crest of the palisades. It appeared about the size of the full moon at mid-sky, shining silver metallic color, no visible vapour trail. It was in sight about 8 to 10 seconds, disappearing from sight in the western sky. Its shape appeared slightly elliptical, the long axis in the direction of flight.

INFO GIVEN TO Capt Charles B Copas, AFMIL-111 / 4 Aug 58
